

Mastering TOPIK II Writing (Q53): Analyzing Household Trends

A Deconstruction of **Data Description** and **Causal Analysis**

- **Objective:** Analyze a model answer regarding 'Changes in Household Types' (2010–2024).
- **Method:** We will reverse-engineer the text to extract high-scoring **grammar patterns**, vocabulary for trends, and logical structures.
- **Goal:** To equip you with the template necessary to describe statistical increases, decreases, and causes in Korean.

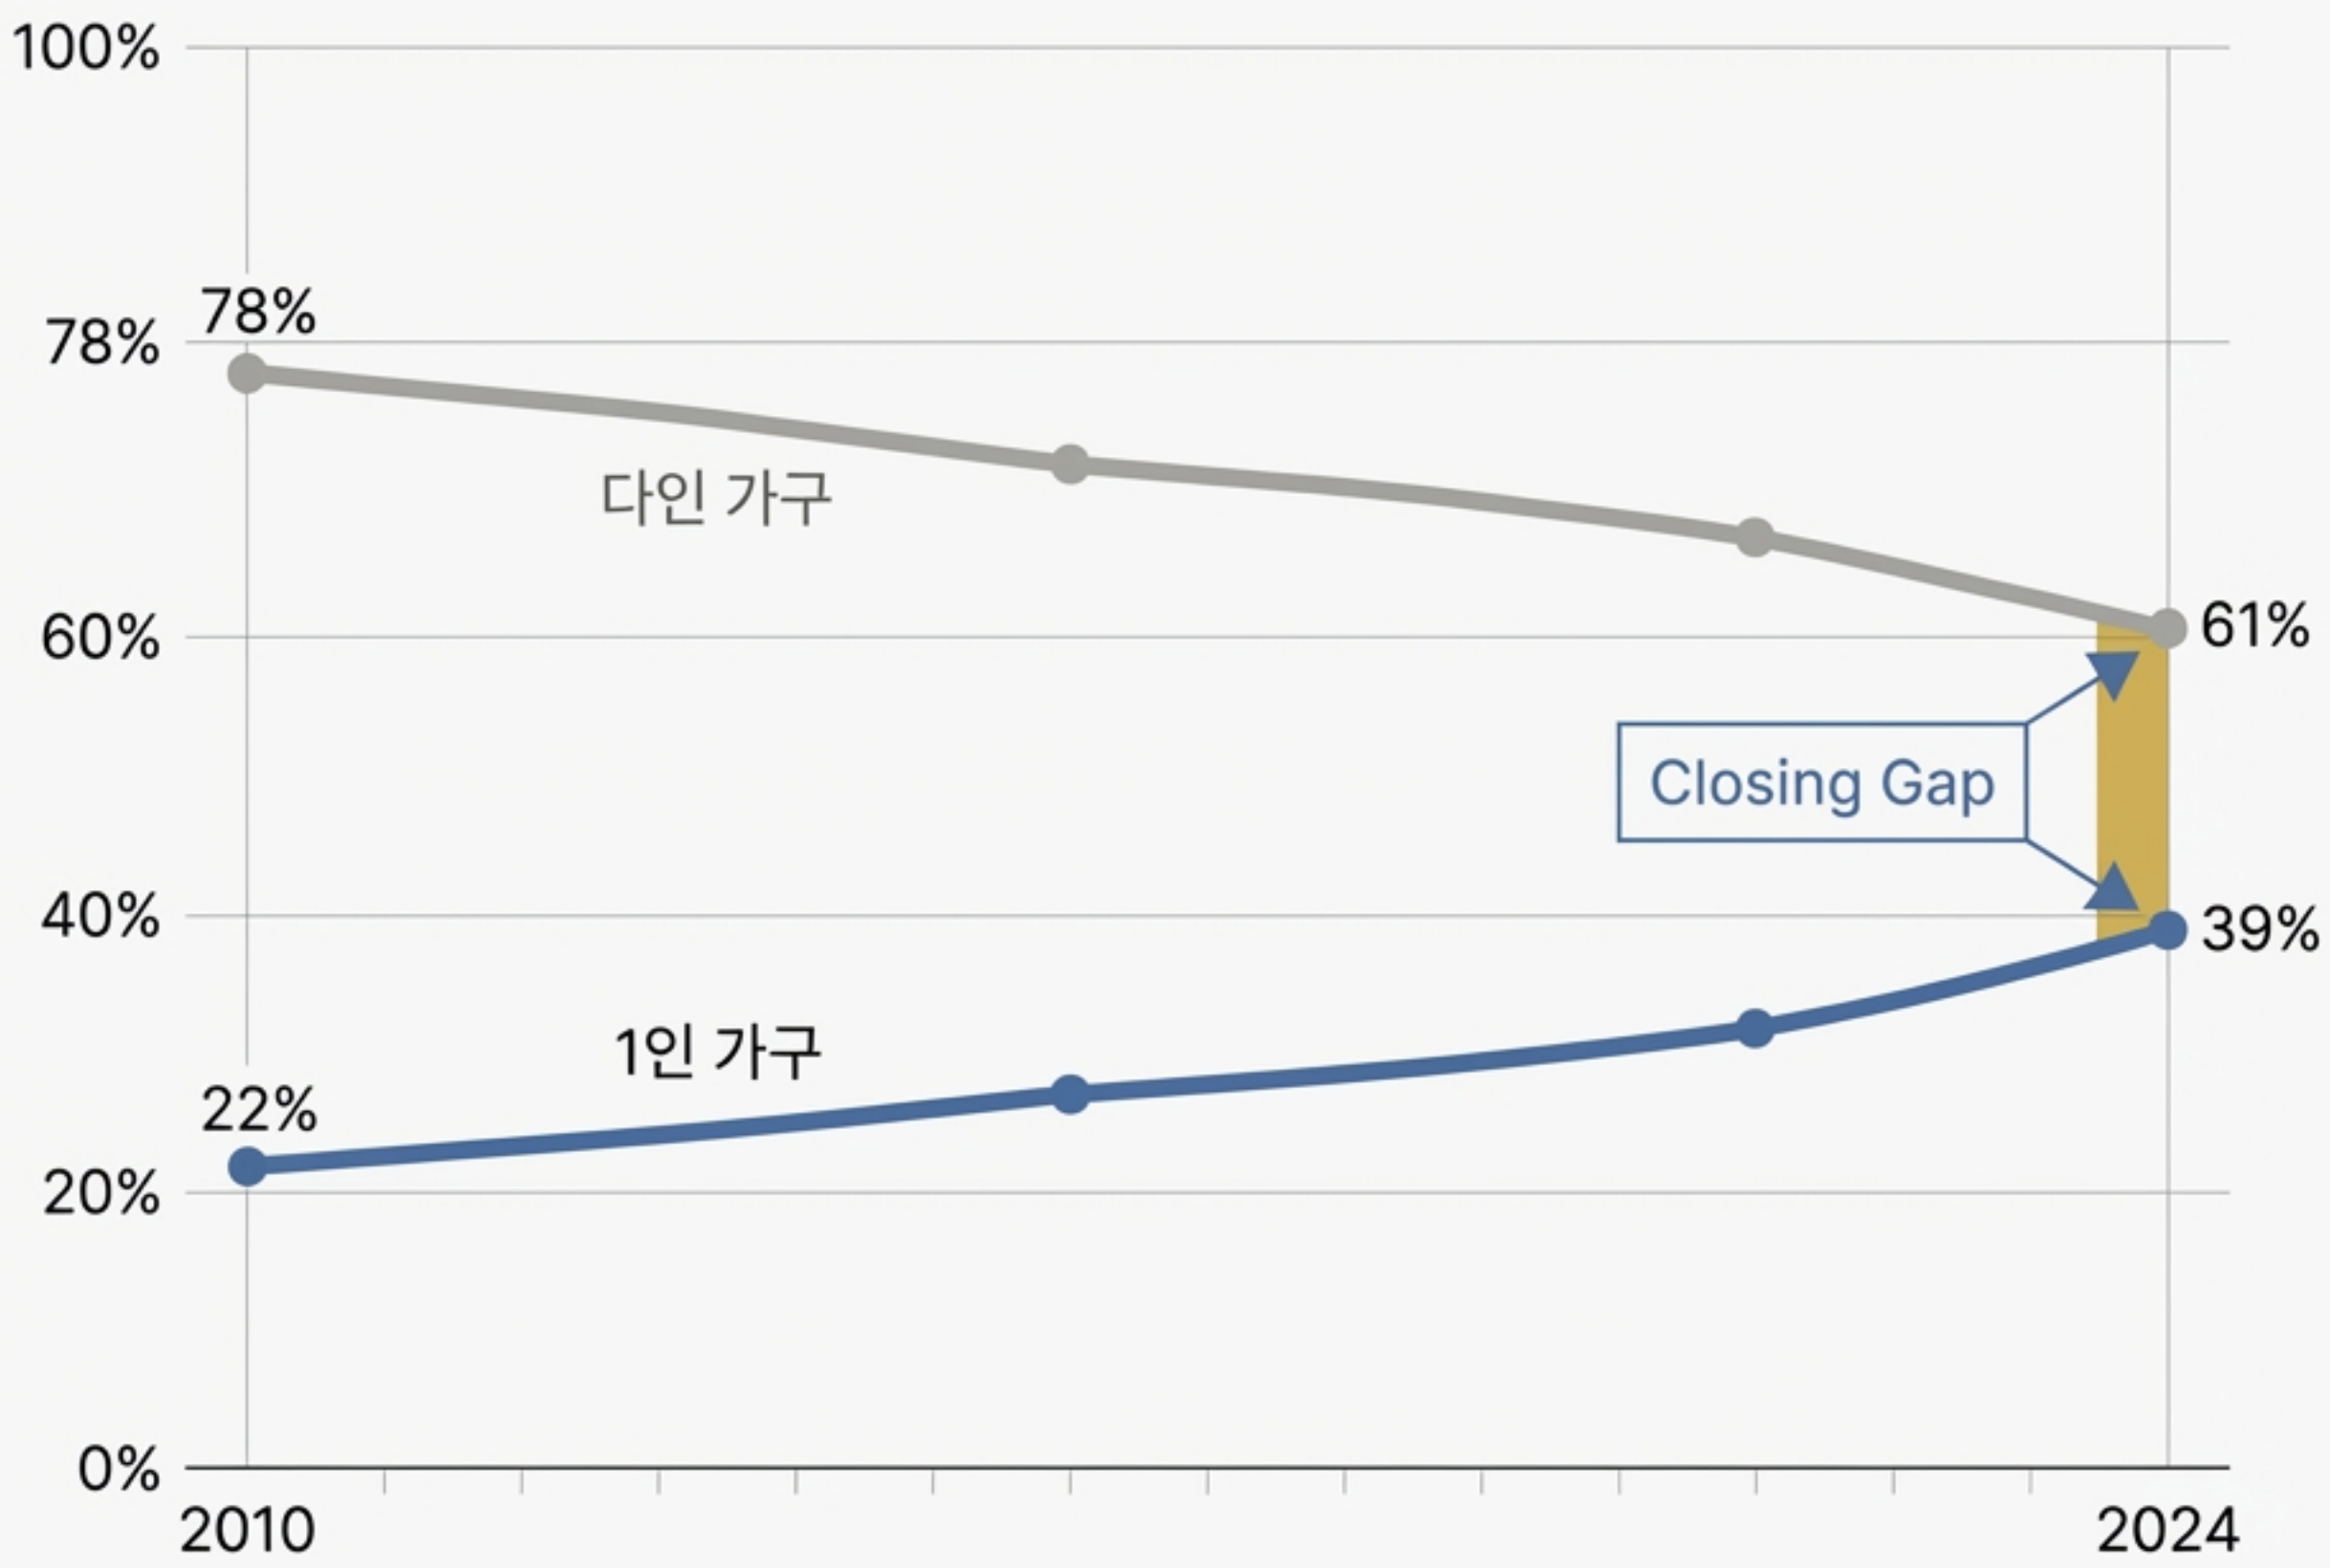

통계 자료를 바탕으로, 가구 형태의 변화를 조사하였다. 조사 결과, 전체 가구 가운데 1인 가구의 비중은 2010년 22퍼센트에서, 2024년 39퍼센트로, 꾸준히 증가한 것으로 나타났다. 특히 최근 몇 년 사이, 증가 폭이 크게 확대되었다.

**반면, 다인 가구의 비율은 같은 기간
78퍼센트에서 61퍼센트로, 감소하는
추세를 보였다. 이러한 변화는, 개인 중심
생활 방식의 확산에 따른 결과로
분석된다.**

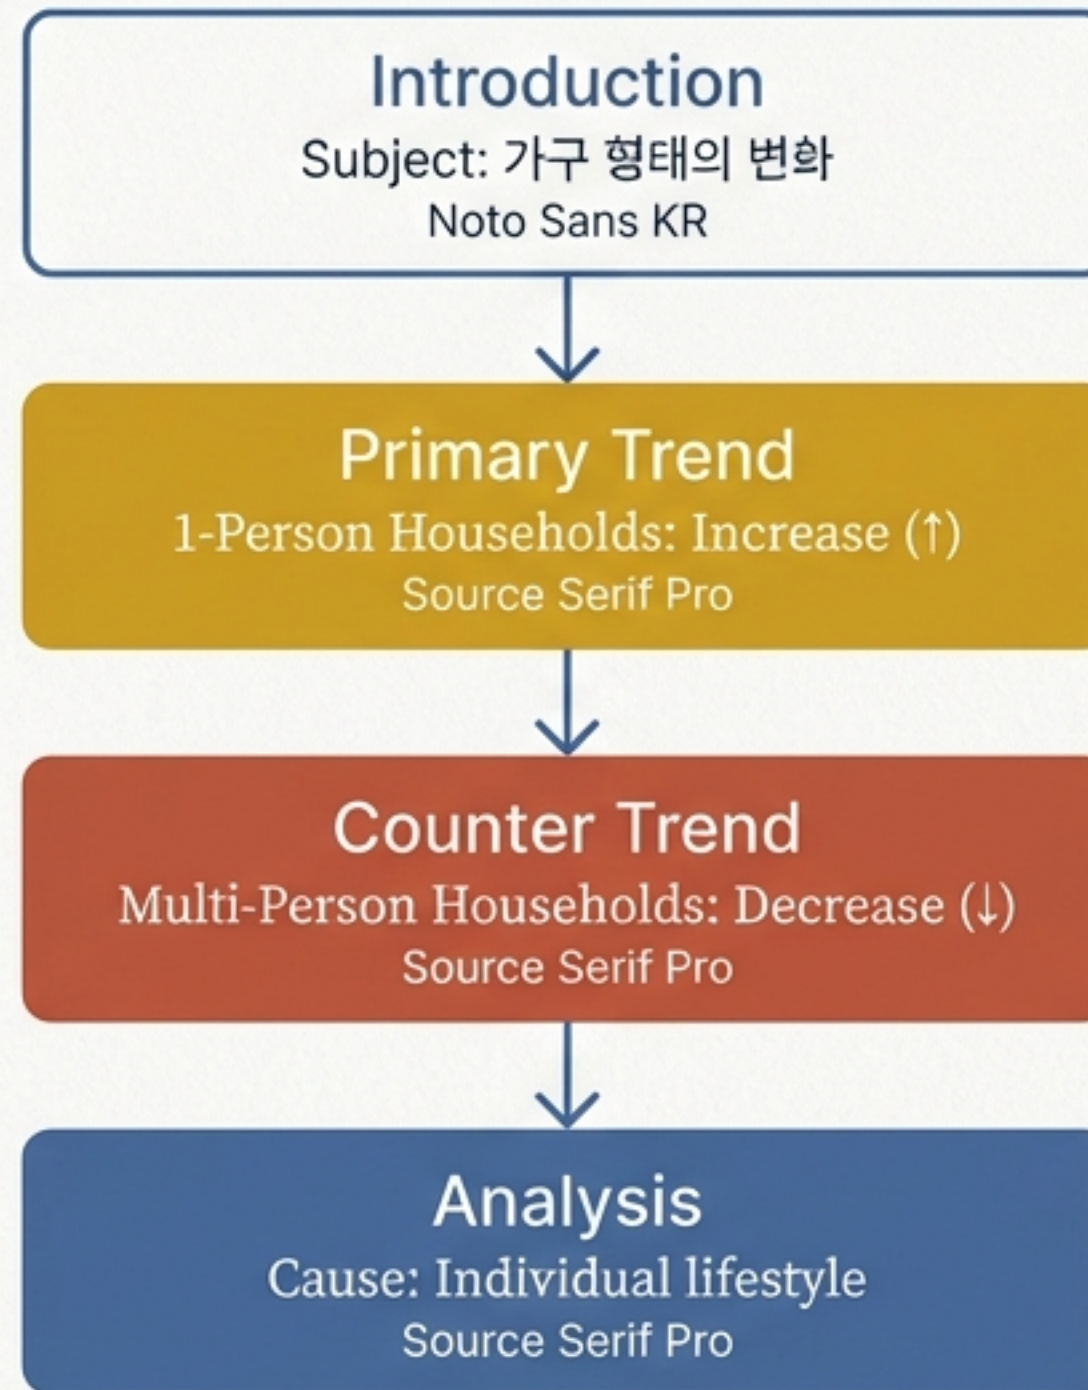

Visualizing the Data Context

TOPIK Q53 requires translating visual data into text. Understanding the shape of the graph helps you choose the correct verbs.

Note that the “Crossing Effect” is not yet present, but the gap is closing.

Component 1: The Introduction Formula

통계 자료를 바탕으로, 가구 형태의 변화를 조사하였다.

Based on
statistical data...

Investigated/Surveyed
(Past Tense Declarative)

Instruction: Start every Q53 graph description with this pattern. Replace '가구 형태의 변화' (Changes in Household Types) with the specific topic given in your exam prompt.

Component 2: Describing Growth & Trends

...2010년 22퍼센트**에서**, 2024년
39퍼센트**로**, **꾸준히** **증가한 것으로**
나타났다.

From A to B

Pro Tip: Avoid simple endings like '증가했다'. Using '...나타났다' (appeared) sounds more objective and formal, which is preferred for data analysis.

Component 3: Adding Nuance (Acceleration)

특히 최근 몇 년 사이,
증가 폭이 크게 확대되었다.

1. 특히 (Especially/Particularly)
2. 증가 폭 (The scale/width of the increase)
3. 확대되다 (To be expanded/widened)

Analysis: This sentence acknowledges the curve in the graph. It tells the examiner you noticed the change happened rapidly in recent years.

Component 4: Contrast and Decrease

반면, 다인 가구의 비율은... 감소하는 추세를 보였다.

On the other hand /
Whereas

Showed a decreasing trend

Comparison of Endings:

- Previous Sentence: ~것으로 나타났다 (Results showed)
- This Sentence: ~추세를 보였다 (Showed a trend)

Varying your sentence endings prevents repetition and improves flow.

Component 5: Concluding with Causal Analysis

이러한 변화는, 개인 중심 생활 방식의 에 따른 결과로 **분석된다.**

This change...

Connects back to data

**As a result
following/caused by...**

Causal Connector

Is analyzed

Passive Voice - **Essential!**

Instruction:

In the final sentence, do not use “I think.” Use the passive voice “is analyzed” to sound like an objective report.

Critical Vocabulary for Memorization

Nouns (Slate Blue)	Verbs/Adjectives (Terracotta Red)
비중 (Proportion/Weight)	확대되다 (To expand)
증가 폭 (Scale of increase)	감소하다 (To decrease)
확산 (Spread/Diffusion)	분석되다 (To be analyzed)
다인 가구 (Multi-person household)	

Memorize ‘**비중**’ and ‘**확산**’. They are high-frequency words in TOPIK II social trend topics.

Based on statistical data, changes in household types were investigated. The investigation results showed that the proportion of 1-person households among all households consistently increased from 22% in 2010 to 39% in 2024. Particularly, in recent years, the scale of increase has largely expanded. On the other hand, the proportion of multi-person households showed a decreasing trend from 78% to 61% during the same period. This change is analyzed as a result of the spread of individual-centered lifestyles.

Test Yourself: Can you reconstruct the logic?

... 2010년 22퍼센트[_____], 2024년 39퍼센트[_____
_____] , 꾸준히 증가한 [_____].
특히 최근 몇 년 사이, 증가 폭이 크게 [_____].
[_____], 다인 가구의 비율은 ... 감소하는 [_____].
이러한 변화는 ... 확산에 [_____].

3 Rules for a Perfect Q53 Score

Rule 1: Vary Your Endings

Don't just use 'increased' (증가했다). Use 'Results showed...' (나타났다) and (나타났다) and 'Showed a trend' (추세를 보였다).

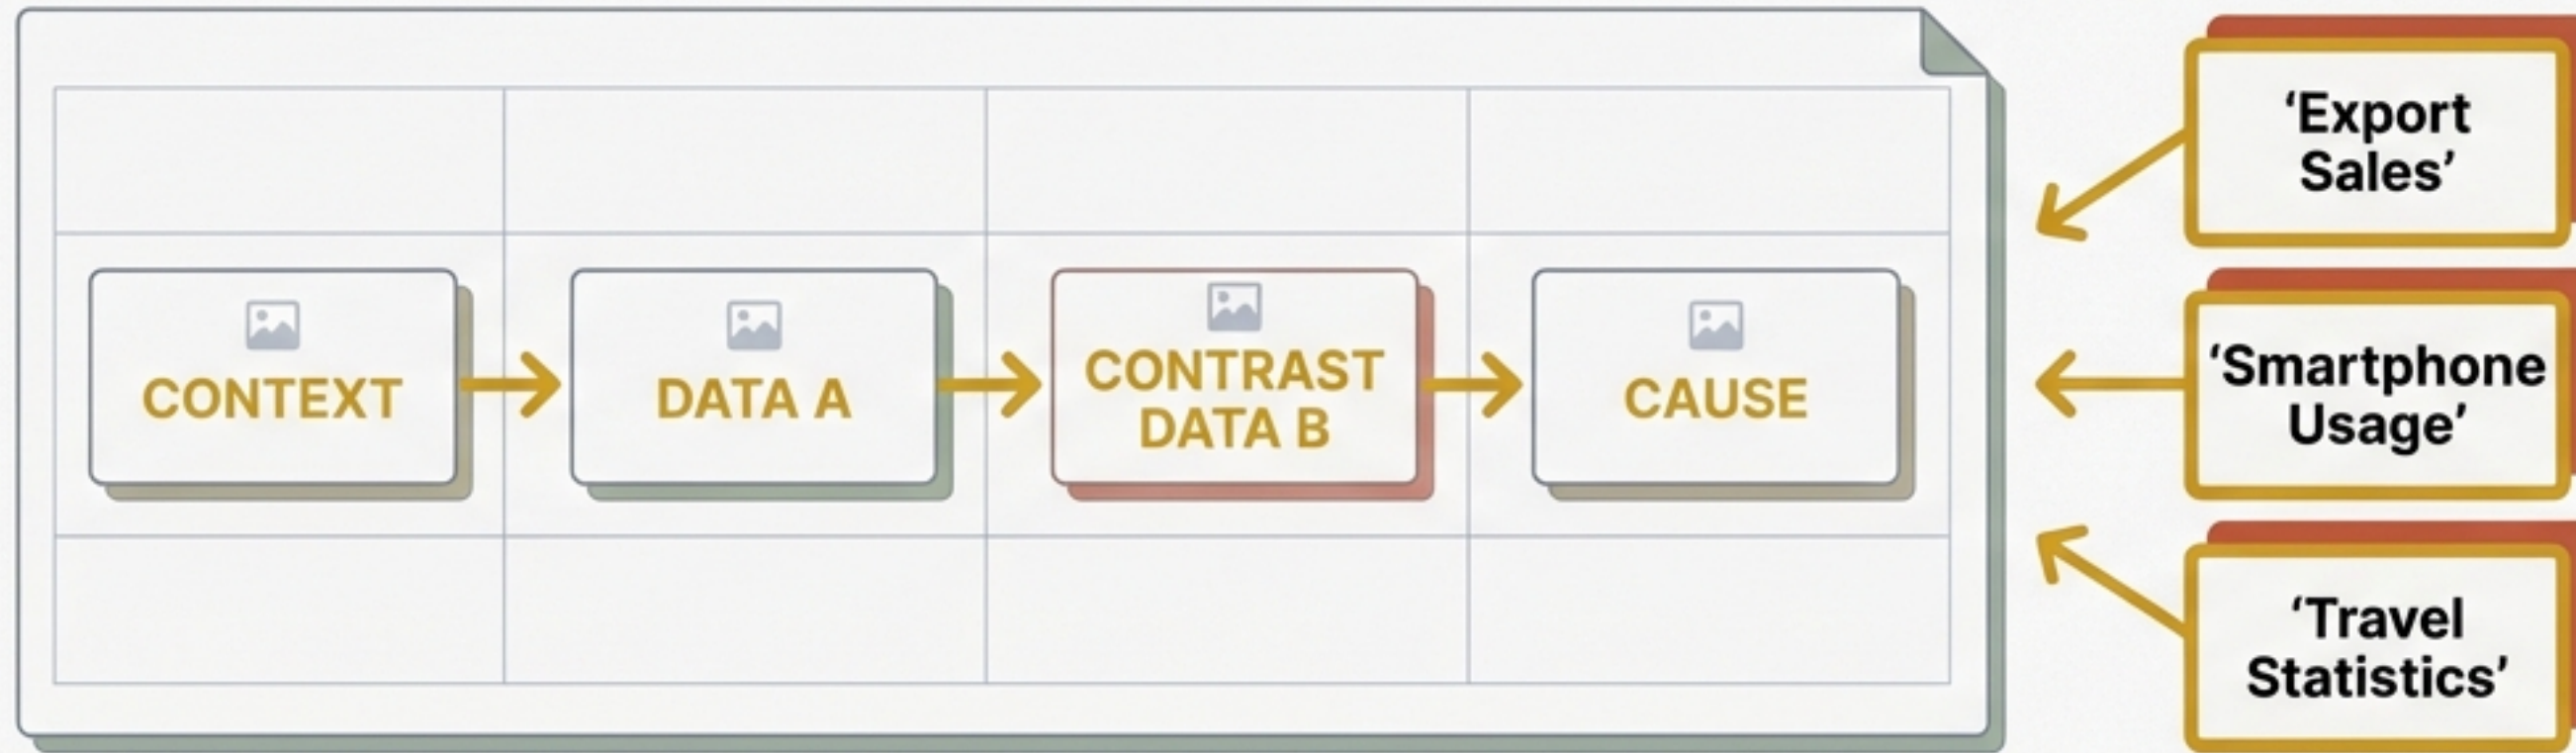

Rule 2: Highlight the Nuance

Look for sudden jumps in the graph. Use terms like 'scale of increase expanded' (증가 폭이 확대되었다) to show advanced observation.

Rule 3: Objective Analysis

When stating the cause, always use the passive voice 'It is analyzed as...' (분석된다), never 'I think'.

One Pattern, Infinite Applications

The text we analyzed today is a template. You can swap ‘1-person households’ for “Export Sales”, “Smartphone Usage”, or “Travel Statistics”.

Master the syntax: **Context** -> **Data A** -> **Contrast Data B** -> **Cause**.

You are now ready to write your own analysis.
